

FLEXCOLOR SOLAR BOLLARD | OFF-GRID

DESIGNED FOR PATHWAYS, PARKS AND CAMPUSES Our solar bollard delivers dependable, off-grid illumination w/ selectable CCT options — including Amber — designed to minimize light pollution and protect night-sky environments.

- Perfect for pathways, waterfronts, parks, schools and more
- Comparable to 40W Halogen
- Easily programmable via remote control
- Efficient operation gives 12 hours of 100% brightness with one charge
- Aluminum housing can withstand harsh outdoor elements
- Advanced new LiFePO4 battery lasts at least 2000 charge cycles and is replaceable
- Exceptional cold weather performance due to low temperature battery chemistry
